

Our Mission:

The Maine Golf Foundation exists to honor, sustain, and grow the game of golf in Maine and to promote the values of honesty, integrity and perseverance that the game teaches. We will accomplish this with a focus on programs that build character in youth through golf.

Our Vision & Goals for 2015

We will be **developing** the golf skills and personal character of Maine youth by serving 1600 children a year in The First Tee Program at four learning centers around the state and numerous affiliate locations.

We will be **introducing** the game to children in a familiar setting by funding classroom instruction in elementary schools throughout the state through The First Tee's National School Program.

We will be **educating** junior golfers in the state about the history and etiquette of the game & **certifying** young golfers whose skills and knowledge deem them "course ready."

We will have a network of courses throughout Maine to provide **affordable access** for junior golfers through memberships and special junior golf fees.

We will be providing new **opportunities** for children ages 11 to 14 to participate in mentoring relationships by sponsoring and supporting golf teams in Maine middle schools.
